Fell From a Wagon.

Joseph Kleinbub, sr., fell from a
wagon at the creek, where he had gone
for a day's fishing, this morning, and
cut an ugly gash in his head but escaped
without other injuries.

sters.

Biography of Bishop Simpson.

The SUN recently contained a long
review of Dr. Crooks' splendid "Life
of Matthew Simpson," published by
Harpers Bros. M. E. Hobart, of the
DePauw School of Theology, has been
appointed agent for this territory.

The Christian Advocate, of New
York, contains the following regard-
ing the work:

The church has been waiting with
interest the appearance of Dr. Crook's
Life of Matthew Simpson. Now that
it has come from the press of the
Harpers, there will be a strong desire
by a host of Methodists, both old and
young, to possess it at once, in order to
read the story of the most distinguished
and universally beloved preacher
American Methodism has produced,
and to judge whether it is well and
fairly told.

Bishop Simpson was so widely known
so warmly esteemed, and so greatly ad-
mired, his oratory was so commanding,
his career so remarkable, that his bi-
ographer essayed no easy task when he
undertook to present him in the at-
tractiveness of his character, grandeur
of his power, greatness of influence,
and the splendor of his career. It was
a work requiring keen discriminating
judgment, a masterly analytical faculty,
a large capacity for research, and an
accurate, luminous, and vivacious liter-
ary style. A thorough acquaintance
with the Methodism of the last genera-
tion was also indispensable.

In whom were all these qualities so
happily combined as in Professor
George R. Crooks, the lifelong friend
and admirer of the Bishop, the Editor
of The Methodist in the day of its great
influence, and a scholar and author of
wide reputation? To no other man
could the church have looked with
equal confidence to be the biographer
of her great preacher and Bishop.

Of the twenty chapters into which
the five hundred, or more pages of the
book are divided six are occupied with
his autobiography sketch and in bring-
ing his life down to his entering upon
the presidency of Asbury University.
His inaugural address at Greencastle
was a most remarkable production for
the age in which it was delivered and
for so youthful a president, and we are
glad that Dr. Crooks has given it in
full in the Appendix. When the
charter for the university was applied
for a member of the Legislature de-
clared that "there was not a Methodist
in the whole United States competent
to fill a professor's chair." The char-
acter of President Simpson's inaugural
must have opened the eyes of a great
many prejudiced persons.

A mad passenger conductor "roasted"
the township trustees yesterday for de-
ceiving persons to whom they issue
paupers' passes. He said that he fre-
quently had poor women with a lot of
children who presented passes to him,
thinking them good to St. Louis, when
they really read to Greencastle. They
having been informed by the trustees
that the ticket would take them
through. He thinks it would be just
as easy for the officials to inform people
correctly, and it would save him a
great deal of unnecessary trouble.

PERSONALS.

J. W. Cole is at Chicago.

E. Shipley and family are at Terre
Haute.

Mrs. Chas. Keifer is visiting at Indi-
anapolis.

Ed Powell, of Xenia, was in the city
yesterday.

A. N. Vaneleave has returned to
Danville, Illinois.

Chas. Boley, of Kansas City, is visit-
ing at F. A. Arnold's.

Frank Osborn, of Bloomfield, is the
guest of B. D. Grismore.

Mrs. Noah Siler and son, of Coates-
ville, is visiting at Jesse Richardson's.

Miss Irene Hays, of Clay Centre,
Kansas, is visiting Miss Sallie Mar-
shall.

H. D. Bartholomew and family will
spend the summer at their home in the
country.

Dr. M. M. Parkhurst is absent on a
ten days' visit to his parents in New
York State.

Judge Waugh, a brother-in-law of
Prof. Marquis, was nominated for Con-
gress in the 9th District yesterday.

Mrs. Flora Laughlin and Mrs. Dr.
Smythe are attending the State con-
vention of the Women's Reading Club
at Richmond. The Greencastle club is
the oldest in the State, having been or-
ganized seventeen years ago.

A. W. McCallum, General Superin-
tendent for the syndicate owning our
water works, is in the city. There will
be a change of Superintendents here,
Mr. Stubbs having resigned. He will
be succeeded by Mr. Potter of Worces-
ter, Ohio, an old and experienced water-
works man.

Base Ball.

The City ball club would like to ar-
range for games with clubs at Brazil,
Knightsville, Plainfield, Danville,
Crawfordsville and other places.

Terre Haute Express: It is pretty
well understood that neither Eiteljorg
nor Laner were formally released to
Evansville by Chicago. There has
been no official announcement of it as
yet. Watch the fine work of the Indi-
anapolis people in the next few weeks.
Eiteljorg will, no doubt, be back with
Indianapolis.

Ed Eiteljorg is home from Indian-
apolis on a visit. He won for Evansville
yesterday, making ten straight games
in which his curves have conquered.
He was loaned to Evansville, not re-
leased, and Spalding wants him with
the Chicago team. It is said that he
isn't particular about playing with the
Windy City club and would much
rather join some other team or stay in
the Inter-state league.

PROGRESS.

It is very important in this age of
vast material progress that a remedy
be pleasing to the taste and to the eye,
easily taken, acceptable to the stomach
and healthy in its nature and effects.
Possessing these qualities, Syrup of
Figs is the one perfect laxative and
most gentle diuretic known.

AMUSEMENTS.

Henri Koeke, the noted tenor, will
sing in the concerts to be given by the
Gilmore Band at Tomlinson Hall, Indi-
anapolis, Thursday afternoon and eve-
ning, June 19. Some of our foremost
musicians have predicted a great career
for this talented artist, and at the very
beginning of his public appearances he
is receiving the highest praise. Upon
a recent visit to Germany, he was very
highly complimented by Gluck and
others from Frankfurt, and the recent
singing he has done with the New
American Opera Co. in several leading
tenor roles has been very successful.
He is one of the most flattering pupils
of the great Italian teacher Mme. Cap-
piant, of whose splendid method he is a
most worthy exponent.

SCHOOL OF MUSIC.

The Sherwood Recital was a success.
Miss Hammond sang beautifully and
her work was as conscientiously per-
formed as any portion of the program.
Phrasing, expression and dramatic
power were given as near perfection as
the most critical person could desire.
Miss Hammond is a valuable addition
to the teaching force of the School of
Music. The Schumann Quartette
never sang better than last evening.
Their rendition of "Blow, Bugle,
Blow," by Hattton, touched the hearts
of those "way up" in the musical art.
Mr. Sherwood spoke highly of their
work and congratulated Dean Howe
upon their success. Mrs. Smith is al-
ways enjoyable as an accompanist,
which connoisseurs declare is an art
not easy to attain.

The reason that the Chickering piano
company was not represented in the
program was that Mr. Sherwood's sec-
retary had neglected to so indorse the
program in manuscript. Mr. Sher-
wood will always receive a hearty wel-
come. His talks are very interesting
as well as instructive.

Mrs. Smith will give a recital on Fri-
day evening. All are invited.

Now for the Term Recitals, Festi-
val and Commencement of the School

MEETINGS AND ANNOUNCEMENTS.

THURSDAY, June 5.—Chaplain McCabe in the University Lecture Course, Meharry Hall.

The annexation of Canada has been widely discussed for a number of years in the papers of both countries, but it is yet far off in the future. In the North American Review for June, the Marquis of Lorne has the following on the subject: We all know that the prevalent belief in the States is that, although the time may not be very near, yet ultimately all Anglo-Saxons in North America will range themselves under the banner of one huge republic. This idea is most sedulously fostered by a patriotic press in the States. But it is wise that the truth should thus be hidden away, and that to counteract such beliefs it should be held necessary at Ottawa to pass a unanimous vote through both houses of the Legislature expressing a desire of Canadians to live their natural life without the aid of political connection with the Republic? Surely there is room enough and to spare for each. The existence of a political state to the north, apart from, but friendly to the States, can never be a menace to any institutions loved and valued to the south of the imaginary line. If the South, with different domestic institutions, and possessing largely an element of alien blood, would have been a menace, no sensible and patriotic American can for one moment look upon Canada in any such light. She is not powerful enough to be other than a good neighbor, nor has she ever in modern history had any wish but a heartfelt desire for the prosperity of the Union, among whose citizens so many of her own are happily domiciled. Any conflict would be as bad as a civil war, and neither country has a tendency to repeat any experiences it may have gone through of that nature.

Is Consumption Incurable?

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable Consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made." Jesse Middleton, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Troubles. Was given up by doctors. Am now in best of health." Try it. Sample bottles free at Allen's drug store, Albert Allen, prop. 5

Washington Dispatches

Public Debt Statement Just Issued.

CONDITION OF THE TREASURY.

Financial Transactions of the Government for the Past Month and Comparisons Made With Last Year—House and Senate Proceedings—Other News From the National Capital.

WASHINGTON, June 3.—The monthly public debt statement issued from the treasury department yesterday shows a decrease in the debt amounting to \$6,661,871 during the past month of May, and for the seven months of the current fiscal year \$67,787,722. The total debt, less cash in the treasury on the 1st of June, was \$1,008,858,988. The net cash or surplus in the treasury on the 1st of June, was \$36,901,791 against \$35,930,622 a year ago. National bank deposits to-day held \$31,235,998 of government funds, or about half a million less than a month ago.

The good fund balance has increased about five millions during the past month, and to-day amounts to \$190,544,854; and the silver fund balance, exclusive of six millions trade dollar bullion, has increased a little more than one million and now amounts to \$18,212,725. The fund of standard silver dollars keeps steadily increasing, and the treasury holds \$309,988,092 of this coin.

Government receipts during the month from all sources aggregated \$35,443,351, and receipts for the eleven months of the current fiscal year, ending May 31, aggregated \$364,536,988. The receipts for the present month will probably reach \$35,000,000, and thus swell the government receipts for the current fiscal year very close to \$400,000,000 or \$15,000,000 more than Secretary Windom's estimate made early last fall.

On the other hand expenditures during the eleven months last past, aggregated \$303,124,940, or about \$14,000,000 more than for the corresponding eleven months of the past fiscal year. Pension payments so far this year have amounted to \$103,177,737, or fully \$13,000,000 more than during the corresponding eleven months of the previous year. Coinage at the mints during May aggregated in value \$9,058,900, or \$74,960 in gold coin and \$2,900,000 in standard silver dollars and the remainder in minor coin.

House Proceedings.

WASHINGTON, June 3.—Yesterday was suspension of the rules in the House. On motion of Mr. Burrows, of Michigan, the motion to reconsider the vote by which the house ordered to a conference the bill for the relief of A. H. Emery, was laid on the table. The bill therefore goes into conference.

After the defeat of several motions to suspend the rules and pass bills, Mr. Lodge, of Massachusetts, moved to suspend the rules and pass a bill granting four condemned cannon to the Abraham Lincoln post, of Charlestown, Mass. This was also lost—94 to 56.

The session of the house up to this time was remarkable in one respect. The principal object of the members present—barely a quorum—seemed to be to kill time and prevent any measure of general importance being called up. The Lodge bill was the target for many attacks. Every member who desired to secure condemned cannon for an army post in his district made objection, and a number of short "home consumption" speeches were made. Mr. Anderson, of Kentucky, raised a laugh when, in response to a remark made by Mr. Flower, of New York, he suggested that all the cannon should be used to aid New York to erect a monument to Gen. Grant.

On motion of Mr. Wright, of Pennsylvania, a bill was passed to ratify an agreement entered into by commissioners of New York and Pennsylvania in regard to the boundary lines between those states.

On motion of Mr. Morrow, of California, the senate bill was passed relieving the Union Iron works, of San Francisco from certain penalties, amounting to \$33,000, incurred in the construction of the Charleston.

Bills were passed increasing to \$270,000 and \$175,000 the limits of the cost of public buildings at Duluth, Minn., and Fort Worth, Tex., respectively. The house then at 5:30 p. m. adjourned.

In the Senate.

WASHINGTON, June 3.—In the senate a conference was ordered on the naval appropriation bill. The silver bill was then taken up. Mr. Morrill addressed the senate. He had been in favor of doubling the amount of silver bullion purchased, and had been, in fact, desirous of doing almost anything in that direction, except abolishing absolutely and forever the bi-metallic standard of money.

Mr. Call, rising to a question of personal privilege, referred to a pamphlet published against him by W. D. Chipley, in which he was accused of false swearing and disgraceful transactions in a land deal in Florida. He declared that the pamphlet from first to last was a falsehood, and that it was published in the interest of conspirators against legislation in behalf of the people of Florida.

The conference report on the military academy bill was presented and agreed to, and then the conference report on the army appropriation bill was again taken up, and the canteen system proposed by the bill was discussed.

The conference report being to the effect that no intoxicating drinks should be supplied in canteens or in traders' stores in states or territories where prohibition legislation exists, Mr. Allison claimed that the reform recently instituted of substituting the canteen for the sutlers' store was well received in the army, and that the house conferees had presented numerous letters from various military posts, written by chaplains and others, claiming that the present arrangement was in the interest of good discipline and morality.

After a long discussion the question was taken and the conference report was agreed to; yeas 35, nays 8; the yeas being Senators Blair, Colquhitt, Dixon, George, Hale, Sanders, Teller and Turpie.

Mr. Edmunds offered a resolution instructing the committee on fisheries to make early investigation into the administration of the affairs of the United States commissioner's office, especially in reference to the changes in the force and compensation of the employees, and as to alleged favoritism, or other undue administrations. He asked unanimous

consent to have the resolution considered now, remarking that Mr. McDonald, the commissioner, earnestly requested the investigation on account of recent newspaper accusations against him. Mr. Plumb objected, and the resolution went over.

The silver bill was again taken up and Mr. Harris addressed the senate. At the close of Mr. Harris' speech the silver bill went over, and after a brief secret session, the senate adjourned.

Pension Prospects.

WASHINGTON, June 3.—Contrary to expectation the matter of pensions came up in the Republican caucus in the house last night, and a long discussion ensued over the kind of agreement that the conferees on the part of the house on the senate pension bills should make. The senate, it will be remembered, recently passed a general dependent pension bill which the house amended by adding the Morrill bill, which contains a service pension clause. A conference was ordered, but the conferees have been unable to agree, and the matter was brought up in the Republican house caucus last night, in the hope that some instructions to guide the house conferees might be agreed upon. A great many members took part in the discussion.

It was finally agreed that the conferees should insist on the retention of the amendments made by the house and also that a further amendment should be made providing that no pension shall be less than \$10 per month.

The McComas bill to prevent by states gerrymandering of election districts was then taken up, and Mr. McComas and others addressed the house on it. No conclusion was reached and it was agreed to allow the bill to await the action of another caucus.

A MIDNIGHT DUEL.

It Takes Place in a Catholic Graveyard Near Louisville.

LOUISVILLE, Ky., June 3.—Shortly before midnight the Catholic cemetery in this city was the scene of a sensational duel, the first that has occurred in the "dark and bloody ground" for many long years. Thomas Overby, a hot-blooded young Kentuckian, and Robert Sanders, a dashing young Hoosier, were the principals and Miss Emma Zenor, a pretty but fickle brunette of Indiana, the cause. The latter and Sanders were sweethearts in Evansville, and were engaged to be married.

While on a visit here, however, Miss Zenor lost her heart to Overby, a handsome young fellow of this city, possessed of plenty of money and engaging manners. Of this Sanders knew nothing until he arrived here Sunday and called on his sweetheart, per appointment. As he arrived at the house he was confronted by Miss Zenor and Overby, going for an evening stroll. Taking in the situation, he began to upbraid the young lady for her fickleness and a storming interview followed. Overby thereupon espoused the young lady's cause, whereupon Sanders demanded satisfaction on the field of honor.

As Kentuckians seldom refuse invitations of this kind the challenge was accepted. The affair was quietly arranged, and at 11 o'clock the principals, with their seconds, arrived at the cemetery. The moon shed a flood of light upon the scene, making the graveyard almost as bright as midday. No time was lost. The seconds tossed a coin for choice of position. A 32-caliber, self-acting revolver was placed in the hands of each of the principals. Twenty paces were stepped off, the word given and a blaze of fire flashed from the muzzles of the two pistols.

Before it could be determined whether either had been injured four more reports rang out and Sanders fell to the ground. He had been shot twice. One ball entered his right breast very near the heart, and the other tore a furrow through the muscles of his arm. Overby was unconscious. Both the latter and the wounded man were immediately put in carriages and driven away. Overby subsequently left for Cincinnati, while Sanders is believed to have been taken to his house at Evansville. The young lady takes the matter coolly.

How Reporters Fooled the Spirits.

NEW YORK, June 3.—The World publishes a long story of an exposure by its reporters of a fraudulent spiritualist medium. The exposure was brought about by the aid of incandescent electric lights, with storage batteries. The lamps and batteries were strapped around the bodies of the reporters, and at the critical moment the light was flashed and the medium and her assistants seized while personating spirits.

The Election in Oregon.

PORTLAND, Ore., June 3.—In the state election held yesterday the vote for governor will be close, but the returns received seem favorable to Penoyer, Democrat. Meagre returns from the state indicate the re-election of Hermer, Republican, for congress by from 4,000 to 6,000 majority. The Republicans will probably have a majority in the legislature in joint ballot.

More Trouble Feared.

MAY'S LANDING, N. J., June 3.—The striking Italians who placed obstructions on the track at Folsom, N. J., and threatened serious trouble, owing to their being paid by the contractors for work done, were yesterday paid off by the railroad company and then discharged. There are considerable mutterings among them, and more trouble is feared.

To Nominate Carlisle's Successor.

FRANKFORT, Ky., June 3.—The Democratic executive committee of the Sixth congressional district of Kentucky has decided to hold the primaries for the selection of congressional delegates next Saturday. The convention will be held in Carrollton, Wednesday, June 11, to nominate a successor John G. Carlisle.

Ate Wild Parsnips.

OTTAWA, Ont., June 3.—A family named Campe, living at George's Lake, Prescott county, ate wild parsnips last Wednesday. Two boys, aged 7 and 9 years, have died. The grandfather, mother and a 3-year-old child will not likely recover. The others are out of danger.

Used Coal Oil to Start the Fire.

DENVER, Col., June 3.—Mrs. A. Morrow attempted to start the fire with kerosene. The can exploded and the woman and her boy of 3 years and girl of 16 were burned to death.

Labor In England.

A Proposed Scheme to Prevent Strikes.

ARBITRATION IN ALL CASES.

A "Conciliation Committee" Composed of Both Employes and Employers to Settle All Labor Troubles Hereafter Arising—Various Other Foreign News.

LONDON, June 3.—The London chamber of commerce is maturing a scheme which it is expected will reduce the number of strikes in a great measure and ultimately abolish that method of settling disputes between employer and employee. The plan contemplates the formation of a "conciliation committee" half of which is to be composed of employes engaged in the various trades, and half of master employers representing the leading industries; this committee, it is proposed, to divide into twelve groups for purposes of convenience, and any dispute incapable of settlement by one of these sub-divisions is to be referred to the full committee.

The plan meets with the favor of the trades unions and the masters, and it is not likely that any difficulty will be experienced in obtaining the unanimous consent of both to abide by the final decision of the committee. The recent strikes among the tailors of London and the probability that there may be another at an early date have induced the master tailors of Glasgow to import a number of workmen under contract from Germany.

Eight of the largest tailoring establishments in Glasgow have formed a syndicate with the object of overcoming any strike that may occur among their workmen. One hundred men have already been engaged at Hamburg under a contract, binding them to work steadily for one year at a weekly stipend of thirty shillings, £7.50. The syndicate pays their expenses to Glasgow and guarantees that a week's work shall be only fifty-four hours. It is expected that many more will be imported, and it is quite likely that the movement will extend to London.

In Love with the Queen.

LONDON, June 3.—In England to make love to Queen Victoria has been treated invariably except in the case of the late prince consort as a sign of dementia and more than one humble subject has had occasion to cool his ambition in the narrow limits of lunatic's cell. The latest candidate is Alfred Carter, a young weaver, who, pitying her majesty's widowed condition, wrote a letter proposing to marry the queen, and adding that no sum of money would buy him off from the purpose of becoming her majesty's husband.

The young man was pounced upon by the royal household police and arraigned before a magistrate on a charge of lunacy. The magistrate did not take the old time-honored view of the case, and shocked the household police by declining to send the youth to a lunatic asylum. Young Carter was turned over to the custody of his own father.

Worthy of Imitation.

LONDON, June 3.—The Guinness Brewing company has voluntarily added a shilling a week to the wages of each of its employes, supplementing the announcement with the statement that the prosperity of the company's business justifies its sharing the increase of profits with the men who have contributed to it by their industry and fidelity. This increase of wages, made quite unexpectedly and without solicitation, will add the sum of £7,000 a year to the company's pay roll and incalculably increase its popularity as well as that of its products with the working classes.

A Bishop on Boycott.

LONDON, June 3.—The Right Rev. Edward T. O'Dwyer, Catholic bishop of Limerick, has issued a pastoral letter withdrawing from the priests in his diocese the power to grant absolution to persons guilty of boycotting or advocating or practicing the "plan of campaign." The action of the bishop has created much surprise and indignation.

Time for Bismarck to Shut Up.

BERLIN, June 3.—The emperor has informed Prince Bismarck that if he does not at once cease his utterances on political affairs and other matters, relating to his retirement, with which the press have been filled of late, the result will be serious to him.

Banishment Instead of Imprisonment.

SOFIA, June 3.—The sentence of Capt. Kaloboff, of the Russian army, who, as a co-conspirator with Maj. Panitz, was condemned to nine years' imprisonment, has been commuted to banishment.

Awaiting Dr. Peters.

LONDON, June 3.—The Standard's Berlin correspondent is enabled to state that Germany has made no demand as yet in respect to Uganda, but awaits the return of Dr. Peters with treaties.

WILL NOBLE RESIGN?

A Rumor That He is to Leave the President's Cabinet.

ST. LOUIS, June 3.—There is a rumor among politicians and railroad men of the city to the effect that Gen. John W. Noble is to resign the secretaryship of the interior in President Harrison's cabinet and accept a position as attorney for a prominent western railroad.

The rumor is denied, doubted, accepted as the truth, and as a possibility, no one seems to know anything definite. It is known that Gen. Noble has sold the residence property which he bought with the intention of building a home, to Wilbur F. Boyle, and this fact is accepted as a proof of the story of his intended resignation being correct.

Accidentally Shot Himself.

MANCHESTER, N. H., June 3.—Four French Canadians and their wives went into the woods Sunday to spend the day. One of the party, Medrick Proteau, saw a squirrel and while approaching with a double-barrel gun to shoot it, both barrels of the gun were discharged. One charge lodged in his abdomen, carrying with it a match safe which he carried in his pocket. Recovery doubtful.

More English Breweries.

SAN FRANCISCO, June 3.—The legal documents consummating the sale of the ten principal breweries in this city to an English syndicate for \$750,000 reached here yesterday.

A NEW RAILROAD.

Another New Building That Will Connect With the Coast.

PARKERSBURG, W. Va., June 3.—It is reported here that the Norfolk and Western Railroad, which is now building an extension of 200 miles in the Ohio and Northwestern, which runs from Cincinnati to Portsmouth, and that their intention is to complete it to a point on the Ohio side where the extension being built in this state reaches.

This would give them a through line from Norfolk to Cincinnati. Negotiations are also pending between the Pennsylvania Railroad company and the Pittsburg and West Virginia company for the purchase of the projected lines of the latter company which are to be built from Pittsburg to Clarksburg, W. Va. The object is a competing line with the Baltimore and Ohio through the mineral section of this state.

Lightning's Destructive Work.

LEXINGTON, Ky., June 3.—Lightning struck St. Peter's Roman Catholic church Saturday night, setting it on fire. The tower was destroyed, and the flames did much damage to the main building. The pupils and Sisters of St. Catharine's academy, adjoining the church, were in the chapel at the time, all being prostrated, but no one was hurt. The lively stable belonging to Turney, Clarke & Mitchell, in Paris, was struck by lightning Sunday night, and burned to the ground, consuming six valuable horses. A dwelling adjoining the stable was burned. The loss is \$15,000.

"McGinty" Goes Down.

NEW YORK, June 3.—A special to The World from Kansas City says: A bare knuckle prize fight at Guthrie, O. T., on Saturday night was witnessed by the mayor, city councilmen, army officers and several territorial officials, besides a number of women. Only seven rounds were fought, but they were bloody enough to suit the most eager patrons of the prize ring. Hoggatt, an unbeaten Oklahoma pugilist, was awarded the fight on a foul. "McGinty," an unknown, was his opponent.

Fatal Fire in St. Louis.

ST. LOUIS, June 3.—Early Monday morning at 1623 Franklin avenue fire, originating in a paint shop beneath, consumed a tenement house. An aged man named Scottman was suffocated by smoke. Mrs. George Wolf and two children were seriously burned, and Mrs. Charles Hausse and her son, 7, were probably fatally burned.

THE DAILY SUN.

ONLY CENTS A DAY OR
10 CENTS A WEEK.

BOTH A LUXURY AND A NECESSITY.

An Important Adjunct of City Life—No Citizen of Greencastle Can Afford to be Without It—No Man so Poor he can not Take It—Contains the Local, County, State and General News—All the News of the Day from all Over the World—Seven times Fresher and Better than the Weeklies—Now is the Time to Subscribe.

THE GREENCASTLE DAILY SUN is a four-page, twenty-four column paper, devoted to the best interests of Greencastle and vicinity. It is a complete modern daily paper, containing all the news of local and general interest.

LOCAL NEWS.

Greencastle has for many years enjoyed the distinction of being the chief educational center of the State, and has earned the reputation of being a news center as well. It has been said, and is probably true, that Greencastle furnishes more news, according to the way in which that article is generally estimated, than any community in the State outside of a half dozen large cities.

To give a faithful portrayal of the daily life of the city, in all its varied interests, will be the constant aim of THE SUN. THE SUN stands for push and pluck, and may be relied upon to champion every healthful enterprise in and for the city.

THE SUN not only gives the news, but gives it while it's hot.

STATE AND GENERAL NEWS.

Through the American Press Association—one of the largest and most reliable news associations in the world—THE SUN is enabled to present to its readers from day to day news from every land under the sun. Thus we are enabled to give not only the happenings of our own city and county from one to seven days before the weeklies, but also the general news of the country almost as soon as it happens. Indiana State news has become a prominent feature of the paper, and one that meets with general approval.

MISCELLANEOUS.

In addition to our regular news service, the Sun will publish Poems, Essays, Short Stories, Clippings from bright exchanges, and bits of wit and wisdom, making it possible to get along without any other paper so far as completeness is concerned.

Spring Song.
The swift is wheeling and gleaming,
The brook is brown in its bed,
Rain from the cloud is streaming,
And the bow bends overhead.
The charm of the winter is broken!
The last of the spell is said!
The eel in the pond is quickening,
The grayling leaps in the stream;
What if the clouds are thickening?
See how the meadows gleam!
The spell of the winter is shaken!
The world awakes from a dream!
The fir puts out green fingers,
The pear tree softly blows,
The rose in her dark bower lingers,
But her curtains will soon unclose;
The lilac will shake her ringlets
Over the blush of the rose.
The swift is wheeling and gleaming,
The woods are beginning to ring,
Rain from the cloud is streaming;
There, where the bow doth cling,
Summer is smiling afar off,
Over the shoulder of Spring!
—Robert Buchanan.

A Stepped Platform Railway.
A novel idea has been evolved by two German engineers. Observing that even a fat man can manage to mount a street car in motion, Messrs. Rettig propose to use as their rolling stock three continuous platforms moving along the streets side by side. The lowest of these platforms is four inches high and moves at a uniform speed of five feet per second. Any ordinary pedestrian can, they state, mount this platform from the ground without difficulty, and from this he can with equal ease step on to a second platform four inches higher than the first and moving twice as fast. The passenger thus acquires a speed of ten feet per second, and stepping on to the third platform in the same way he is carried at a speed of fifteen feet per second, or ten miles an hour, to his destination, where he steps off in the inverse order.—New York Commercial Advertiser.

Disgracing a Great Name.
George Hugo, the grandson of the poet, is a very poor representative of the illustrious family to which he belongs. He is in appearance the heaviest dude in Paris and dresses most extravagantly. He never misses an opportunity to let people know who he is. A lady told me she was being served in a shop in the Avenue de l'Opera the other day, when Hugo came in and insisted on being attended to at once. The shopman demurred, saying that he had the lady to attend to, whereupon the youth cried out: "I suppose you do not know who I am. I am the grandson of Victor Hugo." It is a good thing that the old poet did not live to see what the child about whom he wrote such feeling verses has developed into.—Paris Letter.

Amusing Children in London.
Poor London children certainly enjoy much amusement and recreation which their parents never anticipated in their youth. The latest philanthropic idea is to give "Happy Evenings" to board school children, so as to teach the little ones healthful play and keep them out of the streets. This plan has been most successful in Lambeth, so now Mrs. Jeune, who has had so much experience with the poor, has started the movement in Marylebone. The children go through a regular programme of amusements, dances alternating with familiar nursery games, under the superintendence of the teachers and of various ladies and gentlemen who come to assist.—New York Telegram.

Paid to Resign.
The vestry of Trinity Episcopal church, of Pittsburg, Pa., has agreed to pay the rector of the parish, the Rev. Samuel Maxwell, \$5,000 if he will resign on June 1, and the offer has been accepted. This is probably the first instance on record where a congregation has paid its rector to resign and go elsewhere. Under the canons of the Episcopal church a rector cannot be discharged by a congregation, and can only be removed against his will from ministering over it after being tried and found guilty of conduct unbecoming a minister. Mr. Maxwell had the legal right of holding his position for life under this canon.—St. Louis Globe-Democrat.
